

Blueball Original FontStylr Stacks Bundle

Version Release Notes

Version 6.0 - Released 04-28-11

Includes the following updates to all 4 FontStylr stacks:

- **Added new h tag sizing slider option** in the hud window area for all FontStylr stacks.
- **Updated all FontStylr stacks to latest Stacks plugin version.** New FontStylr stacks require Stacks 1.4+. Will not work with older versions of Stacks plugin any longer.
- Added in new Cufon script for Internet Explorer 9. FontStylr stacks custom font styles now display correctly in Internet Explorer 9.
- New template.html file. Streamlined more compact code for faster display.
- Added new css file to the resources folder on each FontStylr stack.
- Updated call to jQuery to version 1.5.2.
- New improved Info.plist file added to each FontStylr stack.
- Each FontStylr stack now validates Strict as long as a unique div name is used for each instance of a FontStylr stack used on a single site page.

Your continued support of our Stacks development efforts for Rapidweaver is greatly appreciated!

We strive to provide you with high quality innovative Rapidweaver Stacks. If you can see anything we can do to make your experience with our stacks better, please email us your suggestions and comments using our contact form page.

Best,
Charlie
